به نام خدا

www.sanobar.ir

اولين كار نصب آخرين نسخه .Net Framework هست. آخرين نسخه 3.5 هست. اين نسخه روي خود نصب كننده SQL Server 2008مجود است.

فايل نصب را اجرا مي کنيم.

از منوي سمت چپ گزينه ي Installation که دومي هست رو انتخاب مي کنيم.

از صفحه جديد بايد گزينه ي اول كه نصب يک اينستنس جديد هست رو انتخاب مي كنيم.

در پنجره ي جديد دكمه ي) Install يا شـايدم Next باشـه!!!) رو مي زنيم تا يک سـري پيش نيازها رو نصب كنه. وقتي نصب اين بخش تموم شـد اين پنجره به شـكل زير در مياد. (البته شـايد اصلا شـما لازم نباشـه دكمه اي بزنيم و خودش خود به خود فقط براي شـما دكمه OK رو فعال كنه(!

🎲 SQL Server 2008 Setup	
Product Key Specify the edition of SQL Server 2008) to install.
Product Key License Terms Setup Support Files	Specify a free edition of SQL Server or provide a SQL Server product key to validate this insta 2008. Enter the 25-character key from the Microsoft certificate of authenticity or product pack specify Enterprise Evaluation, the instance will be activated with a 180-day expiration. To upp edition to another edition, run the Edition Upgrade Wizard. © Specify a free edition: Enterprise Evaluation © Enter the product key: ABCDE-12345-FGHIJ-67890-KLMNO

در بخش بد شـما بايد **شـماره سـريالي كه از مايكروسـافت** گرفتين و در ازاش **پول** دادين رو وارد كنين. اونهايي هم كه از نسـخه كرك شـده اسـتفاده مي كنن احتمالا اين بخش خود به خود پر شـده اسـت!

در پنجره ي بعد **بايد قوانين استفاده از اين نرم افزار رو بخونيم** و تيک پذيرفتن اون رو بزنيم. البته ميتونيم نزنيم! وکلا از خير نصب اون بگذريم آخه ممکنه با روحيات ما اين قوانين سـازگار نباشـه!!! البته ما طبق معمول تيک را بدون خواندن ميزنيم و...

در پنجره ي بعد هم بايد براي نصب يک سري پيش نيازها دکمه Install را بزنيم.

وقتي موارد مورد نياز نصب شـد پنجره ي زير نشـون داده ميشـه كه شـما بايد روي Next كليك كنيد. البته اگه روي Windows Firewallهشـدار داد توجه نكنين. كلا با وجود هر هشـداري ميشـه به كار نصب ادامه داد اما بهتره هشـدارها رو برطرف كنيم. البته بايد كامپيوترمون كشـش نصب يک چنين نرم افزاري رو داشـته باشـه ها!!!

🍀 SQL Server 2008 Setup

Feature Selection

Select the Developer features to instal. For clustered installations, only Database Engine Services and Analysis Services can be clustered.

			< Back	Next >	Cancel Help

پنجره ي بعدي بسيار مهم هست. همون طور كه SQL Server كارهاي محترم مي دونن ما ميتونيم بيش از يك اينستنس روي يك SSMS و Engine نصب كنيم. بهتره كه از همين الآن اينستنس ها رو با نام نصب كنيم. يك نام بدين. توي كانكشـن استرينگ هايي كه ميسازيم اين نام ها تاثير دارن.

ما مُيَّتونيم از اينسَّتُنسَ هاي مختلَفي توي نرم افزارهاي مختلفمون استفاده كنيم. واسه امنيت و كارايي بيشتر. گزينه ی Named instance رو انتخاب كنيد .

بقیه مراحل در تصویر قابل مشاهده میباشد و به دلیل گویا بودن تصاویر نیازی به توضیح نیست ...
